

NEOGEN CANADA'S ALPACA COLOUR GENTOYPING HOW TO PROCEED?

1 - Order your sampling units (blood cards or TSU) directly on Neogen Canada website. Please note that the TSU (Tissue Sampling Unit) requires a one-time purchase of a reusable tag applicator.

Minimum 10 units per test method. Prices in CAD and in effect as of July 2023.

Blood Cards = \$0.55/unit

<https://www.neogen.com/categories/sampling-equipment/blood-card/>

TSU = \$25/box of 10 + Tag applicator = \$50

<https://www.neogen.com/categories/sampling-equipment/tag-applicator/>

2 - Perform sampling according to selected method (Blood Card or TSU).

3 - Fill in the Excel submission Form « Alpaca COAT Testing Submission Form Canada» with the animal's information (Name, Registration ID) and the code barre # from either the blood card or TSU for each animal tested.

4 - Email a copy of the « Alpaca COAT Testing Submission Form Canada » by email to:

neogencanada@neogen.com

5 - Ship samples by mail directly to Neogen Canada in Edmonton WITH a printed copy of your « Alpaca COAT Testing Submission Form Canada» included in shipment. I recommend purchasing a shipping service with tracking.

6 - Tests will be analysed and results will be sent by email 6 to 8 weeks after reception. Neogen Canada will send an invoice by email after the tests results are received.

Alpaca Coat Colour Testing cost \$60 CAD / sample.

(Price as of March 2023)

For any additional questions, you can contact Neogen Canada by email at neogencanada@neogen.com or by phone at 1.855.324.9774.
